Performance Metrics

Overall Search

Jan. 26 - Apr. 25, 2020

The metrics above were generated from all Search, Display, and Shopping campaigns in your account, but exclude data from Google Search Partners sites.

Size of Account

Active Campaigns	3
Avg Ad Groups per Campaign	1.7
Active Ad Groups	5
Avg Keywords per Ad Group	18.0
Active Keywords	90
Active Text Ads	5

Wasted Spend

\$84.57 in projected 12 month wasted
\$21.14 already wasted in the last 90 days

Number of Negative Keywords Added

0%
since last
report

What does it mean?

Good work! Your wasted spend is at a minimum.

You're doing well, but utilizing more negative keywords could save you up to \$7.05 per month. Learn how you could be saving more...

Best / Worst / Average Text Ads In Your Account

Your Best Ad

Best Ad	Imp	Clicks	CTR	Top Imp. Rate	Expected CTR
On Mobile	1,499	8	0.5%	18%	1.8%
On Desktop	298	5	1.7%	33%	2.4%

Your Worst Ad

Worst Ad	Imp	Clicks	CTR	Top Imp. Rate	Expected CTR
On Mobile	13,421	12	0.1%	1%	1.2%
On Desktop	281	0	0.0%	1%	1.1%

Your Average Ad

Overall Average	Total Imp	Total Clicks	CTR	Top Imp. Rate	Expected CTR
On Mobile	52,319	69	0.3%	8%	1.4%
On Desktop	7,003	13	0.4%	11%	1.4%

What does it mean?

You've written a fair amount of ads, but writing more targeted ads will go a long way toward improving results.

To get the most out of PPC, target your weakest ads and replace them with new and relevant text ads that feature compelling text and keywords from your ad groups.

Quality Score Optimization

Your Quality Score is 5.9. By improving your score by 1.0, you could save \$27.78 or get 24 more clicks / month.

Active Keyword Quality Score Distribution

■ Your Account ■ Industry Benchmark

↑ 2%
since last
report

What does it mean?

Raising your Quality Scores could help you achieve higher ROI.

Your quality score is 5.9. We recommend that you target a score of 7.0 or higher.

Higher Quality Scores will increase your impressions and lower your costs. Splitting ad groups, finding more targeted keywords and testing different ad text will improve your Quality Scores.

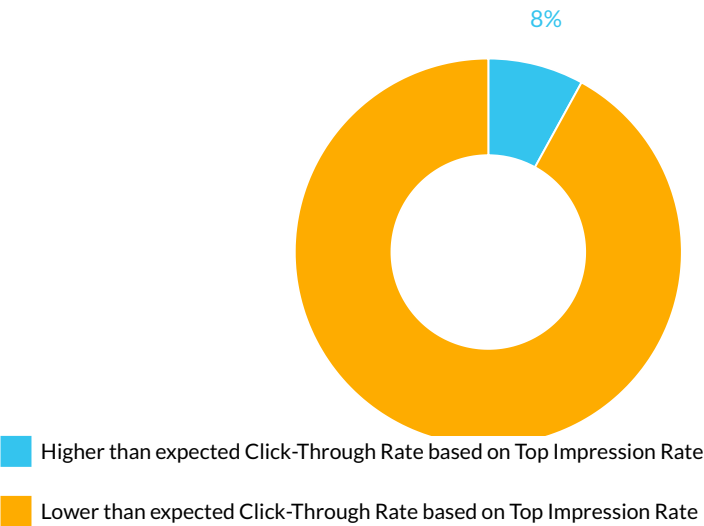

Click-Through Rate (CTR) Optimization

If you increased your CTR to 8.64%, you could expect 16 more clicks or 1 more conversions a month.

↑ 2%
since last
report

Based on their Top Impression Rate, 92% of your keywords have a lower than expected Click-Through Rate.

Best and Worst Performing Keywords in Your Account.

Your Best Ad

Keyword	Total Impressions	Total Clicks	Top Imp. Rate	CTR	Expected CTR
organic nursing pads	27	1	0%	3.7%	1.1%
+lavender +reed +diffuser	103	3	0%	2.9%	1.1%
nursing pads	480	11	10%	2.3%	1.4%
+best +diffuser	78	2	26%	2.6%	2.0%

Your Worst Ad

Keyword	Total Impressions	Total Clicks	Top Imp. Rate	CTR	Expected CTR
+bib +set	2,570	1	0%	0.0%	1.1%

Keyword	Total Impressions	Total Clicks	Top Imp. Rate	CTR	Expected CTR
+natural +aromatherapy	2,555	1	0%	0.0%	1.1%
+diffuser +oil	9,030	6	1%	0.1%	1.1%
+natural +essential	1,052	1	2%	0.1%	1.1%
+ultrasonic +diffuser	4,605	3	0%	0.1%	1.1%

Keywords with impressions, but no clicks

Your Worst Ad

Keyword	Total Impressions	Total Clicks	Top Imp. Rate	CTR	Expected CTR
+tea +tree +oil +aromatherapy	829	0	0%	0.0%	1.1%
+aromatherapy +mist	638	0	0%	0.0%	1.1%
+bib +silicone	605	0	0%	0.0%	1.1%
+aroma +diffuser and +humidifier	559	0	0%	0.0%	1.1%
+baby +bibs +newborn	457	0	0%	0.0%	1.1%

You have 33 other keyword(s) in your account that have received impressions, but drive no clicks.

Your Account Click-Through Rate

Search Network

<div>Mobile</div> <div>CTR: 3.51%</div> <div>Top Imp. Rate: 40%</div>	<div>Desktop</div> <div>CTR: 1.83%</div> <div>Top Imp. Rate: 10%</div>	<div>Overall</div> <div>CTR: 3.09%</div> <div>Top Imp. Rate: 32%</div>

-----------------------------------------	------------------------------------------	------------------------------------------

What does it mean?

Your CTRs are pretty good, but it looks like your keywords and ads could be better targeted.

Increasing your click-through rates would drive more traffic and improve your Quality Scores. To raise CTRs, try finding more targeted keywords and using negatives.

What does it mean?

By spending more time in your account, you could improve key metrics and get better results.

It's important to adhere to an established, proven set of PPC best practices for optimal campaign performance and high ROI. Learn the best practices that PPC experts follow.

Long-Tail Keyword Optimization

Percentage of Long-Tail Impressions

↓ -1%
since last
report

What does it mean?

Adding more long-tail keywords to your campaigns could improve your conversion rates and lower costs per click.

By adding more long-tail keywords to your account, you could improve CTRs and conversion rates while lowering costs. Start finding more long-tail keywords...

Impression Share Optimization

You're losing 89% of your impression share.

Budget Weighted Impression Share

↑ 4%
since last
report

What does it mean?

You're missing out on opportunities for impressions and clicks. Raising your impression share would increase your exposure and bring in more leads.

Increasing your impression share would result in 4,860 more impressions and 150 more clicks.

You need to troubleshoot your relatively low impression share. The problem could be low budget, low Quality Scores, poor targeting or all three.

Mobile Advertising

\$617.56 in projected 12 month mobile spend
representing 84% of your overall PPC spend

Mobile % of Total Budget

Device Comparison Analysis

Device	Cost	CTR	Top Imp. Rate	Avg CPC	Industry Comparison CPC
 Mobile	\$617.56	4%	40%	\$0.37	\$0.99
	\$65.68	2%	10%	\$0.32	\$1.48

What does it mean?

You're still missing out on opportunities to optimize for your mobile ad performance:

- 1 of your 3 campaigns have mobile sitelink extension set up
- 0 of your 3 campaigns have mobile call extension set up

PPC Best Practices

You failed in 1 out of 10 areas

86%

FAILED

- ✗ **Mobile Bid Adjustments**
None of your ad groups are using mobile bid modifiers.

PASSED

- ✓ **Network Targeting**
None of your campaigns target both Search and Display with the same bid amount.
- ✓ **Geo Targeting**
All of your campaigns employ some form of geo-targeting.
- ✓ **Language Targeting**
All of your campaigns are targeted to specific languages.
- ✓ **Conversion Tracking**
You are tracking your conversions.
- ✓ **Multiple Text Ads Running**
All of your ad groups have at least 2 active text ads.
- ✓ **Modified Broad Match Type**
You are using modified broad match keywords.
- ✓ **Negative Keywords**
You are using negative keywords.
- ✓ **Use of Google Ads Ad Extensions**
You are using ad extensions.
- ✓ **Use of Expanded Text Ads**
You have upgraded all of your ads to the expanded text ad format.

What does it mean?

Your campaigns will suffer if you're not following PPC best practices, ensuring you properly target your PPC advertising efforts. Learn what to check and tweak for optimized performance.
